## EDUCATION

October 2022 –  
August 2026  
greater noida, India

**Bennett University**, B.Tech, Computer Science  
**Major in machine learning**  
CGPA till 2nd year - 7.74

## PROJECTS

January 2023 –  
April 2023

### **Mazeforger**

An interactive program designed for maze generation and solving. The maze generation component employs a recursive algorithm, providing simplicity and efficiency in creating mazes of various sizes.

July 2023 –  
November 2023

### **Balanced Talk**

To tackle the challenge of maintaining digital well-being while facilitating seamless communication, my project presents a messaging application that combines the power of "Digital Detox Mode" and "Mindful Messaging."

March 2024 –  
April 2024

### **Diagflow Chatbox**

Chatbots have revolutionized the way businesses interact with their customers, and delivery websites are no exception. They provide a convenient and efficient way for customers to interact with the business, place orders, track deliveries, and get answers to their queries.

## **MENTORSHIP**

---

- CSI hackathon - Coding hackathon in the college, mentored juniors on their projects
